

Attention Future Engineers.....

GearBots is looking for new members to join our engineering team!

Unlock the boundless potential of your creativity and curiosity with GearBots, the premier after-school STEM program designed to ignite a passion for engineering in you. In today's fast-paced world, where technology and innovation are shaping the future, it has never been more important to nurture the problem-solving skills and scientific thinking of the next generation. GearBots offers a dynamic and engaging environment where you can explore the exciting world of Science, Technology, Engineering, and Mathematics (STEM) in our Sr. STEM Academy. By joining GearBots, you will embark on an educational journey that not only equips you with essential skills for the future but also instills a sense of wonder and discovery that will last a lifetime. Explore the reasons why GearBots is the perfect choice for all engineers in the making.

GearBots is looking for....

High school students who are academically motivated and wanting to learn more about AI / Machine Learning.

GearBots Sr. STEM Academy: AI/MACHINE LEARNING/DATA SCIENCE GROUP

This group is learning all about the incredible and exciting world of advanced electronic devices. Using a variety of electronics platforms and coding languages, the group is building an AI model to transform an RC truck into an autonomous vehicle.

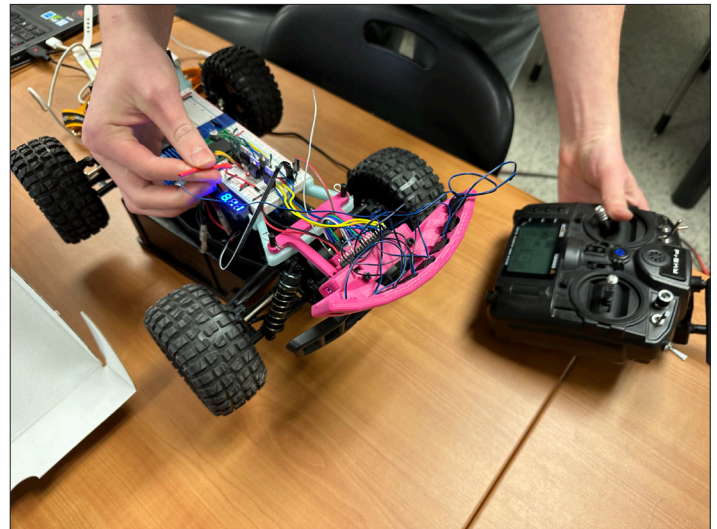

- The course agenda will be set by the instructor and will cover various aspects related to Machine Learning and Data Science.

Where:

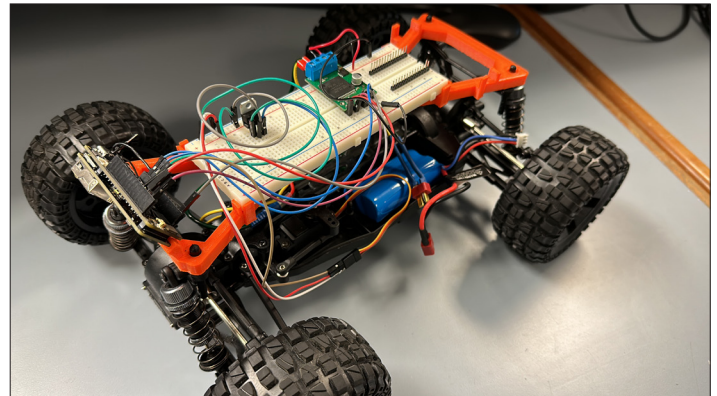

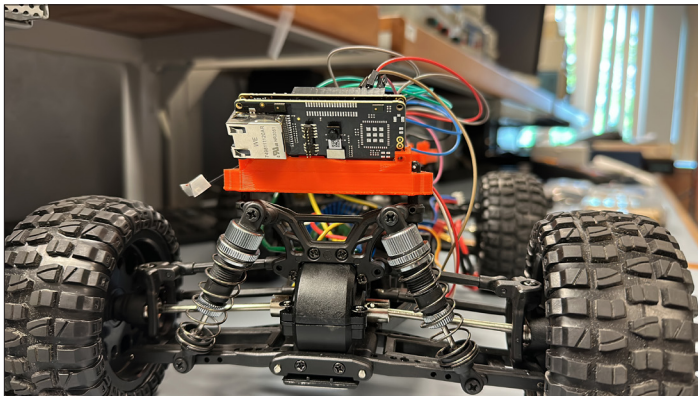

At UFV's Trades and Technology Centre in Chilliwack, BC.

When:

Thursdays from 4:30pm to 6:30pm

LEARN MORE: Arduino Blog - <https://tinyurl.com/y7kk38wf>

Want to learn more about our program? Drop by one of our classes to check us out and see the engineering team in action. Email info@gearbots.org or call/text 604.308.2241 to book a visit.
